MAXWELL

BULLET

POTASSIUM NITRATE

Contains: 13-0-46 Treats: 1,333 – 667 m²

Specialist Autumn/Winter fertiliser that will provide a rapid green-up, Potassium Nitrate provides the perfect ratio of low nitrogen and high potassium.

Potassium Nitrate does not contain sulphate, therefore it can be used to treat anaerobic soil conditions or soils with high sulphur content.

Application:

Apply at a rate of 15 – 30 g per m². Apply evenly, avoid overlapping or missing areas, using a suitable calibrated fertiliser spreader. If there is no rain within 2 days of application irrigate the treated area thoroughly. Do not apply in hot, dry weather or frosty conditions.

Spreader	Application Rate	Single Pass	Double Pass	Spread Width
Accupro (cone 6)	30 g/m²	P	M	3.5 m
Ev-N-Spred 1950	30 g/m²	14	11	2 m

Ingredient	Oxide Value	Elemental Value
Total Nitrogen (N)		**13.00%**
Nitrate (NO_3)		13.00%
Phosphorus Pentoxide (P_2O_5)	0.00%	0.00% P
Potassium Oxide (K_2O)	**46.00%**	**38.19% K**

Manufactured without the use of chlorides

Danger
May intensify fire; oxidiser.
Keep/Store away from clothing/combustible materials.
Take any precaution to avoid mixing with combustibles.
Do not breathe dust/fume/gas/mist/vapours/spray.
In case of fire: Use for extinction: CO2, powder or water spray.
Store away from flammable substances.
Dispose of conents/container in accordance with local/regional/national/international regulations.
