

Premier 20-10-10 is an homogenous fertiliser suitable for turf surfaces with a cutting height greater than 6mm, including outfields sports pitches and lawns.

Premier 20-10-10 contains nitrogen in both the ureic and ammonium forms for a consistent release of nitrogen over a longer period of time. Alongside phosphorous and potassium for root growth and stress tolerance.

| Longevity | Granule size | SGN | Cutting height | Application rate | Bag coverage (turf) | Bags/ha |
|-----------|--------------|-----|----------------|-----------------------|-----------------------|---------|
| 6-8 weeks | 1.0-3.0mm | 200 | >6mm | 25-35g/m ² | 800-571m ² | 13-18 |

Analysis

| Ingredient | Oxide value | Elemental value |
|--|--------------|-----------------|
| Total nitrogen (N) | | 20.0% |
| Ammoniacal nitrogen (N) | | 10.7% |
| Ureic nitrogen (N) | | 9.3% |
| Phosphorus pentoxide (P₂O₅) Soluble in neutral ammonium citrate and water | 10.0% | 4.4% P |
| Phosphorus pentoxide (P ₂ O ₅) Soluble in water | 8.0% | 3.5% P |
| Potassium oxide (K₂O) Soluble in water | 10.0% | 8.3% K |
| Calcium oxide (CaO) | 2.7% | 1.9% Ca |
| Sulphur trioxide (SO ₃) | 23.0% | 9.2% S |

Danger

Causes serious eye damage.

Do not breathe dust. Wear eye protection/face protection

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention. Store in accordance with local/regional/national/international regulations. Dispose of contents/container in accordance with local/regional/national/international regulations.

To avoid risks to human health and the environment, comply with the instructions for use.

Product contains: Superphosphates.
