

Techneat's Acuspray Pedestrian sprayer is aimed at the professional groundsman and keen gardener, for the application of a wide range of products, onto fine turf and hard surfaces.

The 25 litre tank covers 625 m<sup>2</sup>. The machine features a unique wheel driven pump, providing an accurate repeatable application rate. Light weight by design but strong in construction the sprayer uses modern manufacturing processes to produce a robust and durable machine.

The Acuspray is the ideal sprayer for grass court venues, Golf greens, Bowling greens and Cricket squares; where frequent treatments are required. Productivity, ease of use and accuracy, is far superior to that of a traditional knapsack sprayer.
