

**WITHDRAWAL OF PLANT PROTECTION PRODUCTS
IN THE UNITED KINGDOM**

PLANT PROTECTION PRODUCTS REGULATION (EC) No 1107/2009

CHLORPYRIFOS - IMMEDIATE WITHDRAWAL NOTICE

Date of issue: 21 May 2015

This authorisation ends:

- (a) 21 May 2015 for sale, distribution and use of existing stocks for all uses; except
- (b) 31 August 2015 for disposal and storage; and use only on amenity grassland and managed amenity turf, where this was previously authorised on the label.

The expiry dates of the authorisations for the plant protection products listed in the Withdrawal Table have been amended to the above dates.

Signed by: Rachel Brown
Signing time: Thursday, May 21 2015, 13:12:22 GMT
Location: CRD York
Reason to sign: For the Health and Safety Executive

HSE Digital Signature

This Amendment is signed by the Health and Safety Executive ('HSE') for and on behalf of the Secretary of State, the Welsh Ministers, the Scottish Ministers and the Department of Agriculture and Rural Development in Northern Ireland.

ALL OTHER CONDITIONS OF AUTHORISATION REMAIN UNCHANGED

Tipulex	M15757	Clayton Plant Protection Limited	0947 of 2012	1469 of 2015	1484 of 2015

EXPLANATORY NOTES

1. As part of the European Union's routine review programme, new human health based safety levels (known as 'end points') have been agreed for chlorpyrifos. These new end points represent the latest assessment of risk against modern regulatory standards. Where the risk assessments have identified current uses that can no longer be supported, HSE are taking the precautionary approach of restricting those uses with immediate effect. For further information see [CRD Regulatory Update 06/2015](#) issued 19 May 2015.
2. This Notice withdraws the sale, distribution, disposal, storage and use of existing stocks for the specific Notices of Authorisation listed above. The products continue to be authorised with amended conditions of use under the new Notices of Authorisation indicated in the withdrawal table, with the exception of EA Pyrifos, MAPP number 15005, which was already subject to withdrawal.

The following uses are changed with effect from 21 May 2015:

- **Apples and pears.** No use after blossom except for crops destined for cider or perry production. Pre-blossom treatments can continue.
- **Strawberries.** No use for 15 days before harvest (replacing the current pre-harvest interval of 7 days).
- **Plums.** No use after blossom except for crops intended for heat preservation. Pre-blossom treatments can continue.
- **Brassicas** (cauliflower, broccoli, calabrese, oriental cabbages, Brussels sprout, cabbage). Use only before the head forms.
- **Potatoes.** Use only on seed crop potatoes.

The following use is withdrawn from 31 August 2015:

- **Amenity grassland and managed amenity turf**

3. Expiry dates are subject to further decisions which may be made by Ministers.
4. This Notice will be published on the website of the Chemicals Regulation Directorate of the HSE.
