Autumn & Winter

3-3-12**Treats: 400 – 667m²**

Autumn & Winter is a late or early season outfield fertiliser with high potash content and low nitrogen analysis to encourage deep roots without excessive top growth.

Autumn & Winter is an extremely flexible fertiliser that can also be used to complement the other products in the PREMIER RANGE.

Application:

Apply at a rate of 30 - 50g per m²

Apply evenly, avoid overlapping or missing areas, using a suitable calibrated fertiliser spreader.

If there is no rain within 2 days of application irrigate the treated area thoroughly. Do not apply in hot, dry weather or frosty conditions.
