

# Symbio Oil Remover

The enzymes and surfactants in Oil Remover rapidly bio-degrade the spilt oils into harmless constituent parts. The oil residues are washed into the turf where they continue to be degraded by the micro organisms in the soil.

- ✓ To remove fuel, hydraulic and lubricating oils from Sports turf.
- ✓ Also effective on many artificial surfaces.

*Symbio Oil Remover may also be used on hard surfaces and artificial pitches but not on bitumen.*

1kg

**SYMBIO BRINGING LIFE TO YOUR SOIL**

## APPLICATION

Dilute 1-2 scoops in a bucket of water and brush it into the spill. Take care to ensure that you contain the spill on the affected area. Leave for a few minutes and brush again before rinsing the residue into the soil. In severe cases where deeper contamination has occurred hand spike the affected area and saturate the sward with Oil Remover solution.

## COMPOSITION:

Symbio Oil Remover is a compound of nutrient, enzymes and surfactants

**DANGER**

### HAZARD

Causes serious eye damage

### Precaution

Wear protective gloves/protective clothing/eye protection/face protection. Avoid breathing dust. In case of inadequate ventilation, wear respiratory protection
