BUSHRANGER EDGER E35

***the ideal Edger for Professionals
and Local Authorities***

- Extremely robust build – will last and last
- Low noise and vibration – can be used for over eight hours
- Third wheel drops down to run in the gutter
- Cutter head tilts to the left and right providing an angle on border edge
- 3.1hp Kawasaki engine provides lots of power, and long reliable service

Rugged performance gives a professional finish

The Bushranger Edger E35 has been specifically designed to cope with rugged Local Authority work.

It is powered by the advanced Kawasaki 3.1hp FJ100 4 stroke OVH engine.

This combination comes together to give an impressive ELV of 567 minutes per day.

The Bushranger Edger E35 is a solidly built machine which will provide Contractors and Local Authorities with years of use and an excellent finish.
