

Lawn Care

WHERE?

Just apply MossOff® wherever you see moss on your lawn, walk away and leave the unbeatable green power of MossOff® to do its work.

HOW?

MossOff® is a brand new, natural non-chemical treatment that is **COMPLETELY SAFE** to use near people, animals, plants and ponds. It dries to form an invisible biodegradable micro-coating that stops moss growth.

WHEN?

Whenever you like – MossOff® works all year round. Be patient, it takes slightly longer to work than harsh chemicals but it's kinder to the environment and gives natural, long term protection.

PRECAUTIONS?

None needed but consider using eye protection as MossOff® may cause irritation, just like soap can.

Directions

1. THIS IS VERY IMPORTANT

Only apply on a rain-free day as MossOff® must dry completely to work. If it rains, reapply later.

2. Shake this bottle WELL and dilute with water to the following ratios:

| Use | Parts MossOff | Parts Water |
|--------------|---------------|-------------|
| Heavy Growth | 1 | 3 |
| Light Growth | 1 | 5 |

1L of diluted MossOff® will cover up to 7m²

3. Mix thoroughly.

4. Use a sprayer for best results. Saturate the moss and rinse sprayer and nozzle when finished.

Our Story

Since 1992 VivaGreen has been using natural materials in new ways to create a range of truly biodegradable, plastic-free and chemical-free products.

WE AVOID CHEMICALS: Our raw materials are completely natural and come from renewable resources. As you read this, we're working on innovative ways to replace other dangerous products with natural alternatives that work perfectly without harming you, your family or Mother Nature.

VivaGreen is a world leader in the research and development of these materials and we are committed to making products that are not only the greenest but are also of the highest quality too.

The result is something really useful, is very well made and is also kind to you and your world.

Other great products by VivaGreen:

GreenSax · compostable bin bags

Scrapack · compostable countertop waste bags

GreenStake · biodegradable turf and tent pegs

McDivot · biodegradable fairway divot anchors

For hard surfaces, use MossOff® Multi Surface
